

STAY IMPULSED WITH OUR NEW IMPULSE APP

New **Impulse Studio™** application for Android and iOS

-U o'auy) @ 'o\ 7u† ° k-

We developed the EMS Studio Management & CRM Software including App for Google Play and Apple Store. Our mission is to create a software that provides the daily operational needs for running a smooth EMS Studio operation. We conducted over 100,000 EMS Training. We included our experience, expectations, skills and requirement in this unique EMS management software. We want to share it with you and your clients.

Flexible Online Booking

Your client can book either by trainer or by type of sessions (1 to one or shared session), providing an efficient booking system of your available slots.

Client can easily reschedule and cancel the session(s). The rules are set by the studio owner.

Email confirmation for booking, rescheduling or cancellation to clients.

Conducted EMS Sessions

Your client can keep record of all the conducted EMS sessions...with whom he trained, when and in which studio.

Your client can rate the training on certain criteria. Who is your best performing trainer?!

Health Records & Fitness Calculator

The client can upload all the body measurement sheets, sorted by date. Via the health calculator you can calculate the relevant Skeletal Muscle Mass.

Health Advice Function

You can advise your clients on nutrient and diet via our video in built functions.

About your EMS Studio

Present your EMS Studio and let the client know how to find you, easy via google map.

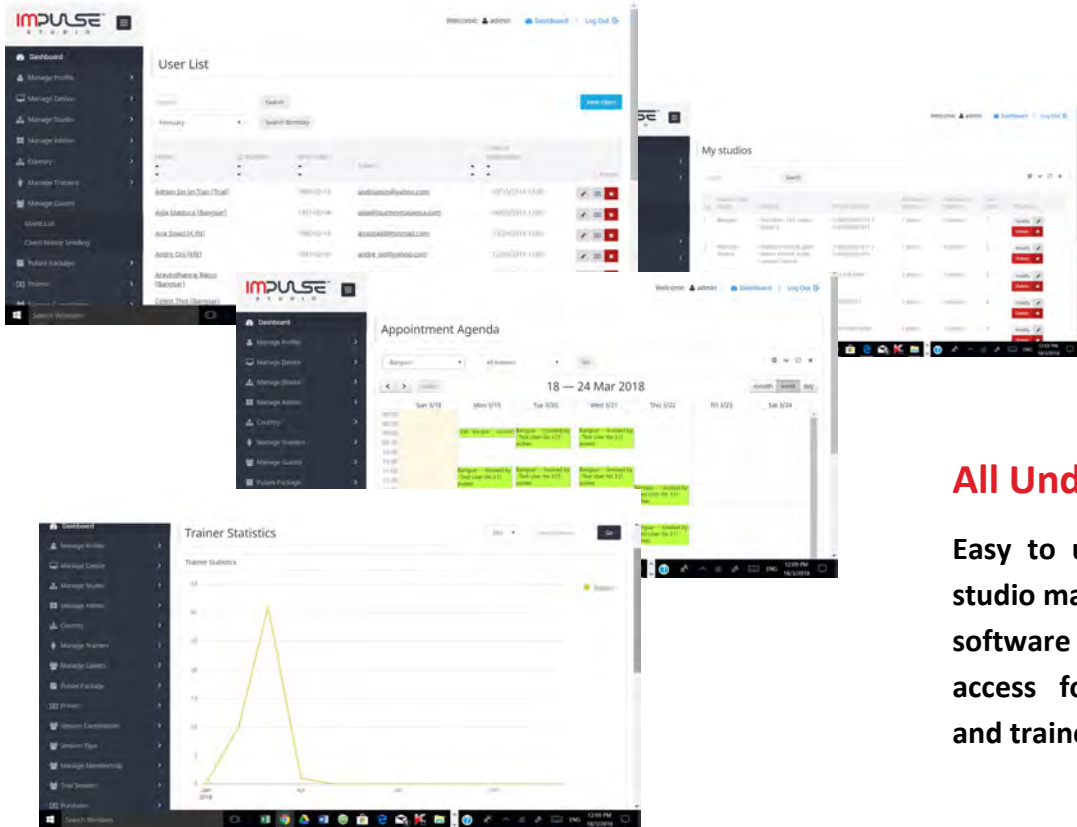

EMS Trainer Profile

Let the client know about your trainer(s) background, including photos.

Payment

Let the client purchase packages via paypal or credit card. Easy monitoring on status of purchased packages / memberships, sessions. No more paper work...invoice will be automatically sent to client upon purchase of package.

All Under Control

Easy to use backend studio management software with separate access for studio manager and trainers.

EASY EMS STUDIO ADMINISTRATION

Rely on a strong backend software system for a smooth EMS Studio operation!

Statistics of Trainer, Studio and Client.

Keep track of your business numbers to act in time.

Manage your Promotion, Pricing, Packages and Clients

Create unique promo codes, control your pricing and know your clients well. We have all the tools to get more personalized.

Push / Email Notification

Send emails to your clients when you have promotions or important announcements to make.

EMS Device Management

Keep inventory of your EMS devices and items.

Manage Staff and Trainer

Create access for staff with certain permission levels.

Booking Overview and Management

Select your booking agenda for each studio and manage it. Each trainer has its own training agenda which will be synchronised with the main agenda.
